

Concerned about  
your loved one  
living alone?  
Want to ensure their  
safety without  
sacrificing  
independence?

**Experience Peace  
of Mind in Real  
Time NOW!**

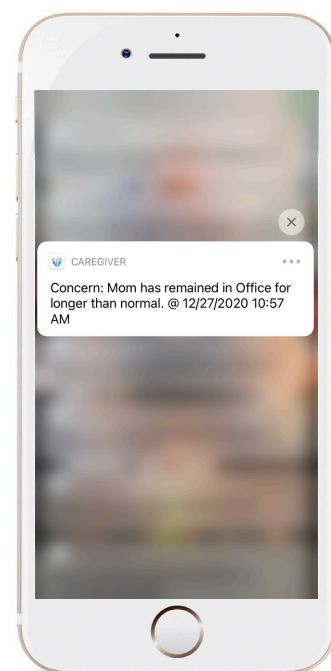

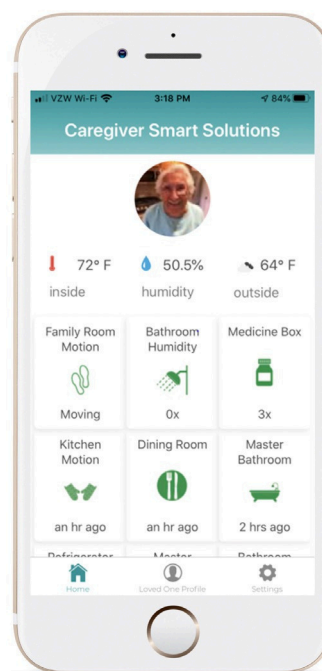

No cameras or invasive technology—  
Just smart, discreet sensors.

**CAREGIVER™**  
SMART SOLUTIONS

- 1. Non-Intrusive Home Monitoring:** Our discreet sensors seamlessly blend into your loved one's living space, continuously tracking daily activities like movement, sleeping, and bathroom visits, while sending real-time notifications to family members through our user-friendly app.
- 2. Comprehensive Insights at Your Fingertips:** With just a tap on our app, gain valuable insights into your loved one's well-being. Monitor their eating habits, sleep patterns, and mobility, allowing you to spot potential issues early and stay informed about changes in their routine.
- 3. Life-Saving Fall Detection:** Equipped with reliable fall detection technology, our sensors provide immediate alerts in the event of a catastrophic fall, even if your loved one is unable to call for help. Quick response times can make all the difference.
- 4. Effortless Care Coordination:** Caregiving is a team effort, and our app allows multiple family members to stay in the loop with real-time alerts and a comprehensive history of activities. This detailed information can be invaluable when consulting with healthcare professionals.
